Art Unit: 1774

1. Claim 28 is allowed.
2. Claims 1-7, 9-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Satou et al (6,808,768) in view of Avar (4,730,018) for reasons of record and for reasons given below. Since the primary reference discloses polyvinyl alcohol as a binder, it would have been obvious to include polyvinyl alcohol, as well as other disclosed binders, in combination, in order to achieve desired properties such as ink absorption, water resistance, etc.
3. Applicant's arguments filed December 13, 2006 have been fully considered but they are not persuasive. The instant claim language is open. The primary reference discloses mixtures of binders including polyvinyl alcohol and derivatives, polyamide, polyester, styrene butadiene copolymer latex, etc. Since these can be stabilized as taught by the secondary reference and the primary reference discloses light stabilizers, it would have been obvious to one of ordinary skill in the art to include the light stabilizer taught by the secondary art. One of ordinary skill in the art would not expect, nor does the art suggest, that presence of other polymers would interfere with the light stabilizing effect of the disclosed additive. Also, the secondary reference does not provide an exhaustive list as suggested by applicants, only examples. There is nothing to suggest that the light stabilizers will not perform the same function with other polymers since it does not chemically combine with the resins that it protects.
4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1774

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
